

MOVING FORWARD

1. AOFOG Short term fellowship/Observership in O&G Ultrasound

This program allows healthcare professionals from the region to update and enhance their knowledge in O&G ultrasound while learning about different healthcare systems in their host country. AOFOG believes in the importance of the continued exchange of knowledge and development of relationships with healthcare professionals from around the Asia-Oceania region and beyond. Fellowship is available in three centres currently in Sydney (Australia), Indore (India) and Kuching (Malaysia). The committee has received several applications from Thailand, Malaysia, Mongolia, Cambodia and Fiji to date and is at various stages of application processing.

2. SGH O&G Ultrasound 2023

Sarawak General Hospital is organizing its annual O&G ultrasound course, supported by the Obstetrical & Gynaecological Society of Malaysia (OGSM) on the 13-14th of May 2023. The lectures are aimed at basic and intermediate practitioners and will cover topics ranging from first trimester screening, endoanal ultrasound and Point-of-Care ultrasound (POCUS).

This face-to-face event will be held in Kuching, Borneo, which is the 3rd largest island in the world and host of the 24th AOFOG Congress back in 2015. Discounted rates are available for OGSM and AOFOG Members. Find out more about the course by scanning the QR code below or by emailing maternalfetalsgh@gmail.com.
